THE BOOTCAMP GOA season 3

THE CONCEPT

At The Bootcamp Goa, our mission is to empower the next generation of music producers and DJs with avant-garde skills and tools in music production and performance to excel on the global stage.

The Bootcamp Goa embodies the principle of "Education through Experience", staying at the forefront of evolving trends in music consumption, production, performance, and technology.

The residential program brings together world-class professionals in DJing, music production, traditional and hybrid performance techniques, and much more in the vibrant setting of Goa. Participants gain hands-on experience with the latest hardware technology while living and learning alongside their mentors. Private 1:1 mentorships are available on demand, and our Soundlabs provide 24X7 access to a wide array of hardware for practice and experimentation.

Our carefully selected mentors are not only experts in their respective fields but also dedicated educators. With a passion for giving back to the community that shaped them, they volunteer their expertise to nurture up-and-coming talent.

Together, we are not just educating; we are cultivating a movement where passion meets purpose and dreams transcend borders. Welcome to The Bootcamp Goa, where the stage is set for your ascent to greatness.

EDUCATION

THE BOOTCAMP GOA season 3

THE OFFERING

The Bootcamp Goa is tailored for aspiring music producers, DJs, electronic music performers, sound designers, and live visual artists looking to launch or take the next step in their careers.

We are also welcoming working professionals with minimal or no elementary experience in Ableton Live and DJing. The Bootcamp Goa provides an opportunity to explore the world of hardware and modular synthesis, DAWless and hybrid performance, film scoring, and video content production and performance.

Whether your goal is to launch or enhance your DJing career, upgrade your music production skills, secure releases on world-class labels, understand music business or perform at venues globally, or dig into the world of making your own Max4 live devices, this program is designed to meet your needs.

EDUCATION

THE BOOTCAMP GOA season 3

THE VISION

Conceived by <u>Rummy Sharma</u>, in collaboration with his dedicated friends, The Bootcamp Goa is a joint venture between <u>3iS Education</u> - Europe's foremost film making and sound university and <u>The Studio Bakers</u> - India's esteemed artist agency. It is a pioneering concept in music education committed to empowering the next generation of music producers and DJs with avant-garde skills and tools in music production and performance to excel on the global stage.

Together, we are building a movement that transcends mere instruction, where accomplished artists selflessly volunteer to share their experience and knowledge to help aspiring artists overcome the challenges they once faced.

We are opening doors that were once out of reach for these up-and-coming artists to showcase their talent, and to launch or take the next step in their career.

3iS
EDUCATION

THE BOOTCAMP GOA season 3

Is this for you?

Do you want to learn avant-garde skills and tools in music production and performance to excel on the global stage?

Do you want to learn from and network with world-class professionals in DJing and music production?

Do you want to launch or take the next step in your DJing or music-making & performance career?

Do you wish to step up your DJing career by adding in extra flavour of live elements?

Do you desire to get your releases on world-class labels?

Do you aspire to become a live visual artist/visual creator/VJ?

Do you wish to learn how to create your own Max4live devices?

Do you wish to make music/sounds for cinema/TV/adverts and understand how the music business works?

Do you wish to improve your music making skills on Ableton and Logic Pro or using hardware?

Do you wish to learn hardware drum machines/groove boxes/modular synths & synthesizers?

Are you bored with playing recorded music in your performance and aspire to become an electronic music "Live" artist?

If the answer to any of these questions is a 'YES', then this program is meant for you.

You must bring your headphones and computers with softwares required as per your course.
